Summary

Electronics and Communication Engineering undergraduate (2026) skilled in Python, Machine Learning, React.js, Flask, and MySQL. Seeking an entry-level Software Engineer or AI/ML Engineer role to build intelligent and scalable software solutions.

Education

B.Tech in Electronics and Communication Engineering *2022 – 2026*
Bonam Venkata Chalamayya Engineering College **CGPA: 7.5 / 10**
Intermediate – MPC *2020 – 2022*
Sri Vasista Junior College **51%**
SSC *2019 – 2020*
Z.P.P High School **CGPA: 9.2 / 10**

Projects

Aquaculture AI Assistant – Full-Stack Web Application *Python,React.js, Flask, MySQL, Ollama*

- Developed an AI-powered aquaculture assistant using React.js, Flask, MySQL, and Ollama.
- Built the frontend using React.js and the backend using Flask with MySQL.
- Integrated Ollama LLM to provide intelligent responses for aquaculture queries.

Nearest Blood Locator – Full-Stack Web Application *Python,React.js, Flask, MySQL*

- Developed a web application to connect blood donors, recipients, and blood banks in real time.
- Implemented secure user authentication and blood availability management using Flask and MySQL.
- Designed a responsive React.js interface for quick donor search and blood request management.

Fish Average Calculator *Python,React.js, Flask, MySQL*

- Developed a web application to calculate the average weight of fish tubs used in aquaculture businesses.
- Automated average calculations, record storage, and report generation to reduce manual work.
- Built an intuitive interface for entering tub details and generating accurate calculation reports.

Skills

Programming Languages: Python, JavaScript
Frontend: HTML, CSS, React.js
Backend: Flask, REST APIs
Database: MySQL
Developer & AI Tools: Git, GitHub, VS Code, Ollama, ChatGPT
Python Libraries & Data Analysis: NumPy, Pandas, Scikit-learn
Machine Learning: Data Preprocessing, Train-Test Split, Model Training, Model Evaluation
Deep Learning: Neural Networks (Fundamentals)

Internship Experience

Python Development Intern – OctaNet Services Pvt. Ltd. *May 2025 – Jul 2025*

- Developed Python applications and completed real-world programming tasks.
- Applied object-oriented programming and debugging techniques.

Full Stack Python Development Intern – Talent Shine *Feb 2026 –Apr 2026*

- Developed full-stack web applications using Python, Flask, and MySQL.
- Built responsive frontends and backend APIs.

Certifications

- PythonDevelopment Internship - OctaNet Services Pvt. Ltd
- Full Stack Python Development - Talent Shine
